

Shashank Bhattacharya

Software Engineer | Lead

shwshank3@gmail.com
01722558242

Augsburg, Germany

Profile

Experienced computer professional adept at developing pixel-perfect, interactive data-visualization web applications. Proficient in cutting-edge development tools and procedures. Demonstrates effective self-management in independent projects and excels in collaborative, productive team environments.

Employment History

Senior Software Engineer at Cesonia, Munich

10/2022–07/2023

- Designed and developed fault-tolerant web applications using modern UI technologies (Micro-frontend, Typescript, React, GraphQL) for high availability and performance.
- Led and managed a team of front-end developers, ensuring timely delivery of features and Jira stories.
- Collaborated with stakeholders, to meet project objectives and deliver features on time.
- Implemented efficient and user-friendly UI features, conducted code reviews, and maintained coding standards for the front-end team.

Senior Software Consultant at Salesforce, Delhi

12/2019–10/2022

- Collaborated on mobile-first Salesforce Commerce-Cloud, optimizing user experience and performance for mobile.
- Supported international partners, implementing and gathering feedback for significant beta improvements.
- Demonstrated effective cross-functional collaboration, delivering a high-quality product meeting stakeholder and partner needs.

Software Engineer at Quality Council India, Delhi

06/2017–11/2019

- Developed and maintained in-house data visualization platforms and web applications, ensuring efficient data representation and analysis.
- Implemented scalable solutions to handle high traffic volumes and accommodate varying network coverage, optimizing performance and delivering seamless user experiences on traffic-oriented platforms.

Education

Bachelor of Engineering, AKTU, New Delhi

06/2010–06/2014

Specialization: Computer Science and Engineering
